

RECOMMENDATION

SONIK START is a dynamically developing business organization focused on social entrepreneurship, counseling, service delivery and support – both on the territory of the country and in international partnerships. SONIK START is the largest social services provider in Bulgaria, proven with its correctness, professionalism and innovation since 2008.

SONIK START has partnered with Agency OZON since 2013, as the organization develops and provides a wide variety of latest and high-quality services to support social service providers, pedagogical professionals and local authorities.

Since 2018, SONIK START uses the services of the licensed team of the Agency OZON to conduct individual and group, professional and emotional supervision for the benefit of direct social service providers and pedagogical specialists on the territory of the whole country. The supervisions conducted focus on professional and organizational problems related to the direct work of the team: professional burnout, organization of group work, team development and relationships; developing a case, maintaining a positive environment, etc..

My satisfaction, as SONIK START Manager, of the professionally fulfilled commitments of the Agency OZON gives me the confidence to recommend their work. The Agency OZON is a reliable and innovative partner, whose team is formed by professionals ready to meet the new and emerging needs of social standards. The consultants, supervisors and advisers of the Agency OZON are experts with extensive knowledge and experience, ready to meet and support the increasingly diverse challenges and standards of the humanitarian sphere.

I am pleased to apprise and express my sincere assurances of the reliability and quality of expertise of the Agency OZON.

Miglena Markova-Gospodinova,
Manager
SONIK START Ltd.
